Reasons for Allowance

1. Examiner has reviewed and considered Applicants comments as indicated on page 10 of Applicant's response dated 12/06/2004 and withdraws the previous rejection. Per Applicant's comments claims 31 - 58, are now in condition for allowance.

The following is an Examiner's statement of reasons for allowance.

The prior art of record does not teach or fairly suggest at least:

"...determine a corrected sequence for the configuration parameter change requests within the transaction via validation of a change request within the transaction...execute the set of configuration parameter change requests in the corrected sequence", as best illustrated by figures 3 and 7, in such a manner as recited in independent claims 31, and as pointed out in page 10, 1st paragraph of Applicants response.

"...determining whether the received configuration parameter change request within the transaction are in an order capable of sequential execution....executing the configuration parameter change requests in the order to assign change requested values to run-time variables", as best illustrated by figures 3 and 7, in such a manner as recited in independent claims 42, 49 and 55, and as pointed out in page 10, 1st paragraph of Applicants response.

Therefore, all claims are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
